Features

- 1 An innovative and versatile modular furniture system, consisting of straight and curved units that easily combine to form multiple workspace configurations.
- 2 Circular and square modules of varying heights can be combined, with or without a writing table, to create mini meeting spaces that can also integrate multimedia/power feeds or screens.
- 3 This furniture system allows for the optimum use of the entire office space, without introducing fixed dividing walls, and the creation of multiple isolated work areas within a same space.
- 4 Seat : metal frame, wood structure, fire-resistant foam, black glides.
- 5 Panel : wood structure covered with acoustic foam, metal rails in a white or light grey finish.

- 6 Melamine tops 25 mm in thickness, choices of finish : white, light oak or walnut.
- 7 Base : tubular-base tables with adjustable stabilizer feet, choices of finish : white, light grey or light oak.
- 8 Cable management : optional modules (see specific technical sheet) position to be determined when ordering.

Layout examples

	Description	Overall dimensions (cm)		
		Width	Depth	Height
	Layout 1 - 90° pod without roof Top W. 900 x D. 1650 mm 6 people	260	260	144.3
